Approval of J-Town Subdivision Plans Are Expected Soon

Final approval of a 310-house subdivision west of Jeffersontown is expected in the near future by the Louisville and Jefferson County Planning and Zoning Commission.

C. R. Thomas, owner of the tract where the project is planned, hopes to begin construction this spring. The tract is between Jeffersontown, Old Six—Mill Lane, Kirby Lane and the Southern Railway tracks.

Preliminary plans already have been approved and some construction details are yet to be worked out, the commission reported. The next meeting of the commission is April 17 at which time final approval may be given.

This is the largest project ever to reach this stage in the Jeffersontown area. A larger one planned by L. Lroy Higgaugh has been abandoned because he was unable to come to terms with the Jeffersontown Board of Trustees over lot size and with the Louisville and Water Commission over other details.

Farm Loans Hit 17-Year Record

Farmers in Ohio, Indiana, Kentucky and Tennessee registered the highest demand for Federal Land Bank loans during March of any month in nearly 17 years. In the past five years the Federal Land Bank of Louisville, announced.

A total of \$248,000 was loaned during the month, Kennedy reported. This exceeded any monthly volume of loans since June, 1934.

"This is a fitting way to celebrate our 35 years of service to farmers of the Louisville Farm Credit District," Kennedy said. "Since the Federal Land Bank was chartered March 23, 1917, 119,298 farmers have obtained loans totaling more than \$403,000,000."

Farmers used their income during and at the close of World War II to reduce their farm mortgage load. Many farmers buying land were paying cash and the demand for loans was low. In the past five years the Federal Land Bank has experienced a steady increase in applications for loans and the amount of loans outstanding. One big reason of this increase is that farmers are seeking a long-term loan at a low interest rate. Many farmers have obtained loans totaling more than \$403,000,000.

Beyond that, farmers of the Louisville District last year got back in the form of dividends \$453,901.00 of what they paid on their Federal Land Bank loans.

BE MARKET WISE

By Miriam Kelley

Field Agent in Marketing and Consumer Information College of Agriculture and Home Economics University of Kentucky U.S.D.A. Co-operating.

Easter at the food counters—though you may not actually see an "Easter tree," good food supplies along with new seasonal products make one feel almost as if one's Easter tree were there.

Spring vegetables appear in better supply, many of them at low to reasonable prices. There's asparagus, or "grass" as it's lovingly called in some parts of the country, coming this week from California—large green stalks, you'll buy it by the pound, enough to serve four to five. Lower ends of the stalks may need trimming to take away the woody part, but use these tender parts for making soup. Settle asparagus that is fresh looking, green stalks, and with closely grown tips.

More signs of spring you'll find in the more and better fresh fruit supplies, lower prices on bag oranges, oranges by the dozen as well as other citrus fruit that includes this week grapefruit and tangerines. Many of the fresh vegetables may be slightly higher in price, but for a special meal, you've probably noticed to spend your money on fruit and vegetables. Special prices on some frozen foods will help keep the costs lower—check at your market for "sale" prices.

Eggs, cottage cheese, and hams—these seasonal foods, along with frying chickens deserve your attention this week. Egg prices are low to encourage greater production at the farm level, especially when prices are so low.

ly when marketing people figure that a dozen eggs will buy only about 3.2 pounds of food. Give your family a food treat by using more eggs, and give the man who fed the hen a break by showing your need for the product.

Frozen Creamed Cheese—You may want to serve this special dessert to your family real soon—It's easy to make, can be prepared ahead of time and is a real rush. Do it this way with these ingredients: 1 cup cottage cheese, 1 cup sour cream, 1/2 cup sugar, 1 tablespoon lemon juice, 1/2 teaspoon grated lemon peel. Strain cottage cheese and beat until smooth and creamy. Add sour cream, sugar and lemon juice. Mix well. Place in freezer tray and allow to freeze until the edges harden. Remove from tray to chilled bowl and beat until double volume. Return to tray and freeze quickly. If you'd like to serve this dessert as a frozen pie, line pie plate with graham or cracker crumbs, and use this container for the final freezing after beating the mixture.

If it's ham for your Easter dinner—first think of the number of people to serve. You can choose a whole ham, or center roast, but half has more bone, but the meat more tender, a little higher in price in many markets. The shank end carves more easily than the butt. The center slices come from the area between the shank and the butt—it's tender, has little waste, but is relatively expensive. If you select a whole ham, one that weighs from 14 to 16 pounds has less waste, carves more easily, and has a better flavor than smaller hams. You'll get about 2 servings per pound with the bone and about 3 servings from boneless ham.

Warning to All Strawberry Growers: The strawberry grower is now active and all growers should dust patches with strawberry dust, containing 5% DDT 5% Chlorane at once. This dust should be used at the rate of 25 to 30 pounds per acre. A second dusting at the same rate should be applied when about 1/2 of the blooms are open. Do not use more than 3 weeks ahead of picking time.

All new patches of berries should be treated just as soon as plants are set. The same combination dust of 5% chlorane and 5% DDT is effective in protecting new plantings from all insects. This material should be applied directly on the plants 10 to 15 days to 2 weeks intervals using from 5 to 10 lbs per acre. A 50 lb. bag should protect one acre of berries throughout the first growing season. This is just good crop insurance.

Last Warning on Fertilizing Berries: All strawberries to be harvested this year should be "Top dressed" immediately with 20% phosphate or a mixed fertilizer of Phosphate and Potash. But No Nitrogen on patches to be harvested this year. Our fertilizer demonstrations in Jefferson County for the past 4 years show average increases of 50 crates per acre from 200 pounds of 20% Phosphate and 166 crates for 100 lbs of 20% phosphate.

Don't get excited now because it's doubtful if you can buy straight Phosphate right now. 0-14-14 or 0-12-12 used in quantities to equal 20% phosphate have been as good and in some cases better than straight phosphate. Recommendations are 100 lbs per 100 foot of row are: 20% phosphate 1000 pounds per acre or 10 lbs per 100 foot of row. 0-14-14, 1500 lbs per acre or 15 lbs per 100 foot of row. 0-12-12, 1700 lbs per acre or 17 lbs per 100 foot of row. Broadcast on top of row.

Another Warning on Wet Planting: Since we are forced to plant early vegetable and fruit crops on rather wet soil again this year, all growers should remember that quick shallow cultivation, following this type of planting, is highly important to prevent the soil from baking around young plants or crusting over seeded rows. Is it here? Here's hoping spring is really here now and that next week will make up for a "heap of lost time."

Fruits and Vegetables

By H. C. Brown, Associate County Agent.

With this April weather, it's catch as catch can with even counting and we could use a few more warm days." Although much of our soil is still cool and damp, our fruit and vegetable growers are rapidly getting into high gear. Potatoes, though a little late in being planted as fast as the planters will roll and there is quite an acreage still to be planted.

Cool Vegetables, such as cabbage, lettuce, cauliflower and peas, are now being planted with a lot of this work being done in soil much rougher than growers are in the habit of planting.

Strawberry planting is in full swing, with some of our larger growers, who use tobacco plant settings, just about through planting. But most smaller growers are still planting. The variety in most demand in Jefferson County again this year is Tennessee Beauty, with Tennessee Shippers, Premiers and Blakemore still in considerable demand for commercial production. Tennessee 965 or "Tennessee" is being planted in trial plantings again this year. Some very good results are being obtained, but we will not know its true value for our own local area until we harvest this year's crop.

Warning to All Strawberry Growers: The strawberry grower is now active and all growers should dust patches with strawberry dust, containing 5% DDT 5% Chlorane at once. This dust should be used at the rate of 25 to 30 pounds per acre. A second dusting at the same rate should be applied when about 1/2 of the blooms are open. By Mrs. Joe Beale

The services continue to be wonderful at High View Church of Christ. Bro. Schreiner brings out the sermon so plain and explains them so well, warning us of all false teachings. Everybody invited next Sunday. Let's go over the hundred mark again.

supper guests of his aunt, Mrs. Jennie Golin and Mr. Golin. Mr. and Mrs. Billy Golin are sporting a brand new Oldsmobile car.

Mr. and Mrs. Bobbie Stout have moved from Winkfield Avenue to their recently purchased home on Glaser Lane. We welcome these folks to our community.

Mr. and Mrs. Joe Beale and Harold Ray made a short call on their nephew, Mr. Paul Eldridge

and family Sunday afternoon. Mrs. Nannie Young spent Friday with her daughter, Mrs. Hazel Tamplin, in Louisville.

Mrs. Florence Nemith is in St. Anthony's Hospital again. The results of a fall last December. Her arm never did knit together so they had to operate and graft a piece of bone in it. We sure hope this may prove to be successful this time and that she may be able to take care of her arm.

Mr. and Mrs. Billy Golin called Sunday night on Mr. and Mrs. Thomas Borton to see their son, Billy Ray, who has been sick with a sore throat.

Mr. and Mrs. Elroy Shepherd and children called Sunday afternoon on her parents, Mr. and Mrs. A. Golin.

Mr. and Mrs. Earl Miller, Sr. and Mrs. Bryan Miller, Jr. and their daughter, Jackie, and her husband are going to California the middle of this month to visit another son, Billy, who is in the Navy and expecting to go overseas soon.

Mrs. Nace Koenigsmann had a fire at their home Sunday caused from an overheated furnace. The Buechel Fire Dept. was called and the fire was put out before much damage was done.

The High View P.T.A. meeting was held Sunday evening. This month so that Miss Ruth Dunn could be the guest speaker as it was enrollment day for all the little folks that will start school next year.

Miss Dunn showed pictures of little children the first day at school and made a nice talk to the little ones.

There will be thirteen or more first graders next year.

All the new mothers seemed very interested and we hope they will come back to the P.T.A. meetings next year.

Mrs. Cunningham was unable to fill the president's chair so the second Vice President, Mrs. Berry, filled her place and did well at the job. Thanks to all who came out and helped make up the good crowd.

High View Community Club will have its first meeting of the year, at 7:30 p.m., April 14, at the school. All interested in the playground are urged to attend as plans for the recreation field for the coming year will be made.

CLASS CONDUCTS DRIVE

The Pioneer Class of the Buechel Presbyterian Church is conducting a paper and coat-hanger drive April 14-18. Proceeds from the drive will go into the building fund of the Buechel Presbyterian Church.

Families who have newspapers, magazines, books or coat-hangers they want to give away are asked to call CH. 1077 or CH. 2672 during the next few days. The Pioneers will pick them up.

The Pioneers are the boys and girls of junior high school age. They are offering their vacation during K.E.A. week to do this work as a contribution to their new church.

Employees of federally-owned and operated facilities are not immune from state and local taxes of any sort, the Court of Appeals held in sustaining the levy of one per cent occupational license tax against U. Mrs. Edward Hartman, landscape leader, gave out the trees purchased, namely, Holly, pink magnolia and pink dogwood's. Our group ordered 42 of them.

Homemaker Clubs

BUCHTEL

The April meeting of the Buechel Homemaker Club was held Thursday at the home of Mrs. H. L. Brown, Glenworth Avenue, with Mrs. G. Hayes, co-hostess. There were 21 members present.

The meeting was opened with the recitation of the Lord's Prayer and the reading of the Homemaker Creed.

Our leader for the day, Mrs. Hayes, then took over and instructed us how to prepare a "One Dish Meal." She was assisted by the hostess and several club members. Each member gave their favorite recipe and these were exchanged.

At noon we were served the meal the leaders had prepared which was very delicious and nutritious.

Following lunch we had our business meeting and the display of 10 lovely aprons that were made by us and turned over to Mrs. Eugene Stewart, citizenship chairman, who is to see that they are turned to some of the inmates at Lakeland.

Mrs. Edward Hartman, landscape leader, gave out the trees purchased, namely, Holly, pink magnolia and pink dogwood's. Our group ordered 42 of them.

After taking a few snapshots for our scrap book, the meeting was adjourned until next month when we meet at the home of Mrs. Julius Fernow on Valley Vista Road.—Mrs. Karl D. Malone, Publicity Chairman.

MILL CREEK

The March meeting of the Mill Creek Homemaker Club was well attended. Our president, Mrs. J. W. Parker, opened the meeting with prayer.

"Food" was the major project. Mrs. J. Monahan and Mrs. Hugh Richardson, being the leaders, prepared the cheese fondue, salad, hot rolls and sherbet, and served it for lunch. We were all delighted and I'm sure all have been serving these recipes at home.

Our recreation conducted by Mrs. G. Harrington was very enjoyable.

The April meeting will be Wednesday the 16th with Mrs. F. Gallegher, Crum Lane.—Mrs. A. R. Kennedy, Pub. Chairman.

STOWERS LANE

The Stowers Lane Homemaker's Club met April 3 at the Parkway Methodist Church basement. There were 15 members present.

The meeting was called to order by the president, Mrs. William Air. A short business session, Mrs. Rickard gave an interesting lesson on Textile Painting.

A delightful luncheon was served by the hostess, Mrs. Huffman.

In the afternoon each lady who had purchased paints and brushes undertook to practice what they had learned. Plenty of enthusiasm, if the painting wasn't so good.

Our next meeting will be with Mrs. M. Isenberg, Hillview Ave.—Mrs. Roy Howell, Publicity Chairman.

ROUTT

Route Homemaker's Club met April 2 with Mrs. Ralph Baskett. Thirteen members were present.
